STUDY00005367 Basic Study Information

Basic Study Information

1. * **Title of study:**
   AI-Generated Images: Factors Influencing Perception and Evaluation

2. * **Short title:**
   Gener-AI-te

3. * **Brief description:**
   This study is focused on capturing individuals' attitudes toward images that have been generated by humans and by artificial intelligence, and exploring whether these are related to individual differences. Participants will first respond to a set of surveys tapping factors expected to influence their attitudes toward AI and towards art in general. Then, participants will view a series of images (a selection of human-generated images and AI-generated images) and respond to questionnaires that assess their emotional response, their aesthetic evaluation, and their overall perception of each image.

4. * **What kind of study is this?**
   Single-site study

5. * **Will an external IRB act as the IRB of record for this study?**
   ○ Yes ● **No**

6. * **Local principal investigator:**
   Stephen Fiore

7. * Does the local principal investigator have a financial interest related to this research?

○ Yes ● **No**
